SPRING HAS SPRUNG

Brighten up your terrace or patio – or even your kitchen – with this versatile metal folding chair from The Conran Shop's new summer collection, inspired by the blue skies and relaxed atmosphere of the Ile de Re. The chairs are made in France from recyclable polyester powder-coated steel and can be left outside permanently.

Available in white, apple green, turquoise and lemon (pictured), £58. www.conranshop.co.uk

Even the most traditional pieces can be transformed with a splash of citrus. This cheerful console table comes in a zesty lime, the very colour of the new shoots poking through the soil in gardens everywhere at this time of year.

Bring the outside in with this sculptural Boxwood ball from Juliette's Interiors. The contrast between the rough texture of the bark base and the glossy leaves will provide interest, not to mention a welcome splash of colour after a dark, dreary winter.

Medium Boxwood ball, height 40cm, £53.97
