DESIGNER FOCUS

Juliette's Interiors

Juliette Thomas noticed a gap in the French reproduction market when she discovered that a bespoke service-online was basically non-existent. With a true passion for French antiques and interior design, Juliette challenged herself to set up an online business providing consumers with exclusive French reproduction furniture.

Sourcing the finest quality pieces from all over the world, Juliette prides herself on her bespoke customisation service, along with her seductively unique collections. Making a dynamic appearance on BBC's Dragon's Den, Juliette's love for mixing classic styles with contemporary touches remains her core style for evolving designs.

Indisputably a growing success, Juliette's background in ICT ensures the online business runs smoothly, allowing large quantities of French reproduction furniture to be purchased with ease. Juliette's Interiors is a mixed eclecticism of the finest classic and contemporary shapes and finishes, producing pieces that create a bold statement, which leans towards the baroque and ornate.

Offering a truly bespoke service on many of their collections, Juliette's Interiors allows customers to create a unique piece, tailored to their very own style. With specialist in-house carpenter and painter, products can be adapted on colour, finish, fabric, size or capacity, with extra drawers or shelves, for instance. For the ultimate indulgence, challenge Juliette's interiors to create a piece entirely from scratch, for a striking result.

Juliette focuses upon the quality and beauty of French reproduction furniture, whilst providing a bespoke service, perfect for customers to make a piece truly their own. Juliette's collections include the Hollywood Regency, St Tropez, Acrylic Chic and Diva collections, all offering exquisite pieces, whether you are a cool minimalist or cosy traditionalist. Catering for those with a taste for French modern furniture, Juliette's eye for exquisite design continues to drive the company forward.
